

How to Respond to Positive COVID-19 Tests & Close Contacts in School Settings

What is the definition of a close contact in school settings?

Close Contacts: In schools, any student within 3 feet sustained for 15 minutes or more, or adult within 6 feet sustained for 15 minutes or more, regardless of mask use. Also, anyone between 3 and 6 feet sustained for 15 minutes or more without masks.

Not Close Contacts: Any student more than 3 feet from an infected student, only if both the infected student and exposed student correctly and consistently wore well-fitting masks the entire time. Also, anyone more than 6 feet from an infected student or adult.

TEST POSITIVE FOR COVID-19

ISOLATE – For 5 days, regardless of vaccination status

- Report positive case to school nurse/COVID coordinator.
- Provide information for any close contacts from the school environment.
- **With Symptoms:**
 - 1) You can end isolation **5 days after** symptoms first appeared
 - **IF:** 24 hours with no fever without the use of fever-reducing medications
 - **IF:** Other symptoms of COVID-19 are improving (loss of taste/smell may last weeks and should not delay end of isolation)
 - **AND:** You must wear a well-fitting mask for the following 5 days when around others, both at home, and outside-of-the home.
- **Without Symptoms:**
 - **Isolate for 5 days** since your positive COVID-19 test. You must wear a well-fitting mask for the following 5 days when around others, both at home, and outside-of-the home.
- **If you are unable to wear a mask, isolate for 10 days**

CLOSE CONTACTS

IF YOU:

- Are **up to date** with vaccines.
- You had a viral-test confirmed case of COVID-19 within the last 90 days.

***Up to date:** means received all vaccines including 3rd doses for immunocompromised, plus boosters when eligible (5 months after 2nd dose of Pfizer/Moderna or 2 months after J&J)

THEN:

- **No quarantine** is necessary
- **Wear a well-fitting mask for 10 days** around others both at home, and when not at home
- Test on day 5 after your exposure if possible (not required if positive COVID—19 test in last 90 days)
- If symptoms develop, isolate at home immediately and get a test.

IF YOU:

- Are unvaccinated, or partially vaccinated
- You are **NOT up to date** with vaccines.

THEN:

- Stay home (**quarantine**) for **5 days**.
- **Wear a well-fitting mask** around others at home and outside of home for **another 5 days**
- Test on day 5 after your exposure if possible
- If symptoms develop, isolate at home immediately and get a test.

IF YOU:

- Are unable to wear a mask

THEN:

- Stay home (**quarantine**) for **10 days**.
